Experience

DevignLabs

Fullstack Web Developer

October 2024 –
November 2025

- Working on modern frontend development using Vue 3, Nuxt 3, and TailwindCSS.
- Build components, optimize UI/UX, improve pages, and develop reusable frontend modules.
- Collaborate with backend/API teams, implement responsive layouts, and deploy production features.
- Handle maintenance tasks, refactoring, and code improvements across client-facing projects.

Internship at Professional Regulation Commission

Calamansi St. cor. First St. Juna Subdivision, Matina, Davao City

February –
June 2025

Programmer/Computer Servicing

- Built a document tracking website to manage client submissions and status updates using CodeIgniter (PHP), MySQL, and Bootstrap.
- Developed both client-side and admin-side functionality for document management workflows.
- Assisted in troubleshooting, IT support, and maintaining system stability during client operations.
- Followed government IT protocols and observed proper client-service procedures.

PWC Cooperative Loan System

University Ave, Road, Davao City, Davao del Sur

September –
December 2024

Fullstack Web Developer

- Developed a loan management system with separate portals for clients and administrators.
- Built frontend interfaces using Next.js, React, and TailwindCSS with secure backend integration via Node.js and MongoDB.
- Handled system design, implementation, and user interface development.
- Optimized user flow, validated forms, and ensured mobile-responsive layouts.
